Re: CHEVY CHASE RESERVOIR – Community Construction Update and
Project Site Tour

Dear Glendale *Water & Power* Customer:

One of the major projects in Glendale *Water & Power's* current citywide water system improvement program is the replacement of the Chevy Chase 968 reservoir and pump station at the Chevy Chase Country Club golf course.

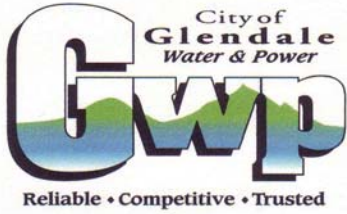

You are invited to attend a community meeting on **Wednesday, May 14, 2008 at 6:00 p.m. at the Chevy Chase Country Club, 3067 Chevy Chase Drive.** Representatives from Glendale's *Water & Power* staff will be there to bring you up to date on the project status and to answer questions regarding the construction work since our last community meeting in March.

The meeting will start at 6:00 PM with a short project update followed by a tour of the project site. We will provide a bus for residents for the tour. Please contact Glenda Silva at 1-866-785-0008 if you need special accommodations during the tour. We look forward to your continuing active interest in this important project.

Glendale *Water & Power* would like to thank the Chevy Chase Country Club for graciously offering their facilities.

Very truly yours,

Peter Kavounas,
Water Services Administrator
Glendale *Water & Power*
